INTERNET BIDDING

Sale will be broadcast online with www.DVAuction.com.
Please see page 12 for more information.

ANNOUNCEMENTS

Announcements made sale day take precedence over printed material in the sale catalog. Anyone attending this sale attends at their own risk. TSN Simmentals and sale force are not responsible for any personal injury while attending this sale.

TERMS OF SALE

All cattle will sell under the suggested sale terms and conditions of the American Simmental Association. Terms available sale day.

SEMEN INTEREST

TSN Simmental Ranch will retain revenue sharing interest in semen sold from bulls in this sale according to the following:

Under \$20,000	TSN will retain 50% semen interest
\$20,000-39,999	TSN will retain 33.33% semen interest
\$40,000+	TSN will retain 25% semen interest

FEEDING AND DELIVERY

We will offer to feed the bulls at no charge until April 15, 2024. Delivery will be free of charge up to 300 miles. We will assist in coordinating the arrangements to deliver. We are not responsible for injury or death to the bulls while they are in our care.

COMMENTS ON OUR NUTRITION

When these bulls were weaned, we put together a GROWING ration not to maximize gain, but rather to develop the bulls slowly and correctly. The bulls are still on this ration today. In the seedstock industry today, it seems that the price we are willing to pay for a bull is affected by how fat the bulls are, and we are not distinguishing the difference between bulls that are fed too "hard" and bulls that are not. A fat bull has the tendency to have feet problems, lower semen quality, and no longevity. He may be easier on the eyes, but if he needs to be replaced in 2 years, is he really the right bull for your program?

Tim has done a great job putting together some outstanding pedigrees. Feel confident that when you make your visual appraisal of the bulls, they are not lying to you. There's no "fluff" fed on. We at Pranger's Feed Mill are very proud to put our stamp on this set of bulls.
Pranger's Feed Mill - Platte, SD

SALE MANAGEMENT

alliedgeneticresources.com

Marty Ropp	406-581-7835
Corey Wilkins	256-590-2487
Jared Murnin	406-321-1542

Welcome to the Sale

Welcome Cattlemen and Cattlewomen,

Thank you for your interest in 2024 bull offering. It has been quite an interesting year to look back on. As always, the weather, cattle markets, and the economy have been on the forefront of our minds. One of the highlights of our year was welcoming a new member into our family. Our daughter Sawyer was married to Wyatt Johnson in June. Wyatt and Sawyer have started their own herd of Simmental cattle and will be offering bulls on our sale. Wyatt and Sawyer will be helping with the sale, and their cell#'s will be included with the sale day phones.

Our goal is to produce cattle that make you, our customers, profitable. We use many tools to make this happen, including individual performance data, EPDs, and DNA analysis. We are teaming up with the ASA and Allied Genetic Resources to use these tools to help us make faster genetic strides towards our goals.

The team at Allied Genetic Resources is great to work with. With their assistance we are making strides with the DNA analysis of our herd and the bulls we offer for sale. We encourage you to read through the RightChoice explanation on the inside back cover of this catalog. RightChoice combines a bull's specific genomic information and EPDs to evaluate ability to transmit value and profit.

We are using DVAuction, the online sale service. All bulls have been videotaped and will be offered online. Screens will be set up in the sale ring. You will be able to watch the videos of the bulls during the sale. The bulls will be at the sale facility the day of the sale but will not be brought through the ring. We are encouraging customs to get a DVAuction buyer number 24 hours prior to the sale. We also encourage you to view the bulls at the ranch prior to the sale.

You may have noticed that there are 6 bulls in the catalog that have no EPDs or pedigree data. This is due to problems with the DNA testing process. We apologize for this and will be putting updates on our website and Facebook page as the results come in. We will also have supplement sheets for sale day.

We are offering to take the bulls home and winter them free of charge until April 1, 2024. At that time delivery arrangements will be made. We are offering free trucking for the first 250 miles of delivery. There will be a \$200 dollar credit off of the purchase price for the bulls taken home sale day.

We look forward to seeing you, and again, thank you for your interest.

The Tim and Sandy Naasz Family
Tim and Sandy Naasz, Sawyer and Wyatt Johnson, Lyra,
Rebecca, and Shad Christman

This bull will catch your eye, he has tons of look and presence combined with muscle and rib shape. Then look at his balanced data. He ranks in the top 20% of the breed for CE, BW, WW, & YW along with combining breed leading STAY with marbling. He has herd bull potential at every angle. His dam's a favorite of ours, out of our 364 donor cow, the dam of Lot 15. He's been on our radar all summer.

KBHR BOLD RULER H152 Sire of Lots 1-14.

Reference

KBHR BOLD RULER H152

The Bold Ruler progeny have been topping sales all across the country. When you look at the bulls here you can see why. This sire group offers breed leading EPDs to go along with a powerful phenotype. These sons have great feet to go along with volume and muscle.

LBRS GENESIS G69

Genesis has been one of the heaviest used Purebred bulls in the breed the past couple of years and for good reason. His progeny excel in calving ease and growth with strong phenotype. To top this all of his first daughters in production are making gorgeous cows. They have plenty of milk and great udders. He is a true "no miss," all-around sire.

L118 is one of the real standouts of the entire sale offering. He is very well balanced with the Herd Bull look. He is massive topped and hipped to go along with great rib and volume. He is very athletic in his stride. He may be one of the best Honor bulls to sell this spring. Take a strong look. Born unassisted out of one of our first Home Town sired cows.

This might be the most massive bull in the offering. He is a real powerhouse! Combine this with breed leading growth and moderate calving ease. He ranks in the top 1% for \$API and top 2% for \$TI.

KBHR HONOR H060 Sire of Lots 19-22.

Reference

KBHR HONOR H060

The Honor bulls have been one of the very popular sire groups all across the U.S. They are very consistent, and the commercial cattlemen love their combination of calving ease, growth and carcass. The Honor bulls in this offering are one of the strongest sets I have personally seen. They have volume and muscle in a correct made package.

A Word from the Sale Manager

It is our pleasure to welcome you to the 2024 TSN Simmentals Annual Bull Sale. This is our second year working with the Naaz family, and what a pleasure it has been. Their commitment to genetic improvement evident in the quality of bulls offered in this sale. They are early adopters of technology but still stay grounded to the fundamentals of solid cattle breeding and development. This set of bulls is proof of these philosophies. If you are looking for your next seedstock herd bull or you are an astute commercial cattleman wanting to find bulls to take your herd forward, I am confident you will find what you are looking for in this offering. These bulls have calving ease, growth, carcass and maternal traits and many of them all in the same package. Not to mention these bulls have been developed right. They have been grown to express their genetic potential but still are not fat and overdone. They should go out and breed cows and not fall apart after their first breeding season. Rest assured that all of the work has been done on these bulls to assure that you are getting a product that is second to none.

We are experiencing some exciting times in the cattle business with record or near record prices in every sector of the industry. This has not happened before. Cow numbers are at historic lows and herd expansion is slow coming. Now is the time to invest in cattle! Don't just invest in cattle, make sure you invest in the right kind of cattle for the future. Heterosis is key as we rebuild this cow herd. Heterosis is the only free lunch in this industry and it is a proven fact the crossbred cows produce more pounds more efficiently all with increasing fertility and longevity. The bulls in this offering will help you get there.

If you have questions about the offering or need assistance on sale day, please feel free to reach out to anyone on the Allied team.

Sincerely,
 Marty Ropp, Corey Wilkins and Jared Murnin

SCHOOLEY STANDOUT 27G Sire of Lots 52-55.

Reference

SCHOOLEY STANDOUT 27G

Standout offers an outcross pedigree with exceptional phenotype. His sons in this sale have the look and performance that commercial cattlemen like.

TSN ARCHITECT J618

Architect is one of the best bulls produced here at TSN Simmentals. He was one of the top performers in his group and combine this with his exceptional phenotype this made him the high seller in our 2022 sale. He combines one of the top bulls in the Angus breed, Hometown, with one of the top bulls in the Simmental breed, Cowboy Cut.

This Proclamation son has balanced traits across the board. He ranks in the top 10% for marbling and \$TI and the top 15% for \$API. He's a result of ET, combining our favorite 701T daughter out of the old 150 cow that was a donor cow for Leachman Cattle of Colorado, with breed standout, Proclamation. We kept 2 flush mate sisters for our herd.

TSN PROCLAMATION L145 Sells as Lot 65.
